Edgeryders - "Facilitating the transition of youth to an independent active life"

Council of Europe, Strasbourg (France)

Description - Edgeryders started out as a project by the Council of Europe and the European Commission. Edgeryders is a global community of mostly European young people. What unites us is that **we have decided to take personal action against the societal, environmental and economic challenges humanity is facing**. Most of us have no access to the resources available to governments, corporations and large NGOs, so we tackle these challenges with what we have: ourselves, our own bodies and minds. Many of us are out to innovate, but not in the sense of making new gadgets. We aspire to a deep societal fix, for tackling the fundamental problems of expanding individual freedom, establishing a fair social deal, crafting an environmentally sustainable society.
